

EFG Analyst

Are you passionate about clean energy and interested in applying your skills to create a positive impact? If so, we'd like to hear from you! Energy Futures Group (EFG) is a busy, eleven-person consulting company with headquarters in Hinesburg, Vermont (just outside of Burlington, Vermont), with a satellite office in Canton, New York and remote employees in Massachusetts and New York City. We perform a wide variety of energy-related consulting work from developing a net zero energy home program in Vermont to critiquing the energy efficiency plans of major utilities across the U.S. and Canada to providing electric planning expertise to clients in Puerto Rico. We take pride in producing high quality work, often for public-interest clients, that helps enable a cost-effective transition to a clean energy future. Learn more about us and our work at www.energyfuturesgroup.com.

Job Summary:

Energy Futures Group seeks an Analyst based in our Hinesburg Vermont office to support senior staff. This position involves research, analysis, and writing on a variety of projects related to electric and natural gas energy efficiency, strategic electrification, renewable energy and other clean energy markets, programs and policies.

Minimum qualifications include a bachelor's degree in a relevant field. Candidates who are an ideal fit for EFG are curious, passionate about energy, detail oriented, eager to work collaboratively with others, and able to understand and help others understand complex topics. The preferred start date is May-June 2020.

Essential Functions:

- Independently conducts research and analysis in support of a variety of projects.
- Collects, evaluates, prepares, and/or synthesizes data, reports, surveys, and plans.
- Independently performs cost-effectiveness analyses of clean energy measures, programs and policies and/or complex energy system modeling designed to inform energy resource choices.
- Assists in design, review and evaluation of projects.
- Supports consulting business development, particularly through development of project proposals and budgets.
- Presents work products clearly, effectively and persuasively.

Required Qualifications:

- Bachelor's degree in energy, business, economics, engineering, science, public policy or related fields.
- Ability to write and communicate clearly.
- Ability to prioritize tasks and handle multiple deadlines.
- Proficiency with Microsoft Excel, Word, and PowerPoint.

Energy Futures Group, Inc

- Demonstrated commitment to work in the public interest.

Desirable Qualifications:

- Experience with energy efficiency, energy modeling, renewable energy, distributed energy, energy regulation, or grid modernization.
- High proficiency with Microsoft Excel.
- Knowledge of data visualization tools such as Power BI and/or Tableau.

Benefits:

Energy Futures Group offers the following benefits to all employees:

1. Competitive salary;
2. Generous annual bonus, based on company performance;
3. 401(k) retirement plan with 4% company contribution;
4. 100% employer-paid medical insurance for the employee and their family;
5. Six weeks of personal time off for vacation, holidays, personal days, sick leave, etc.;
6. Paid maternity/paternity leave;
7. Group life insurance at no cost to employee;
8. Long-term and short-term disability insurance at no cost to employee;
9. Flexible schedule including opportunities to work from home; and
10. A collegial work environment with some plain, nice people who value a synergy between work commitment and life passions.

Come work with us, we look forward to hearing from you!

How to Apply:

Please send your cover letter and resume to careers@energyfuturesgroup.com. No phone calls please. Applications will be reviewed on a rolling basis until the position is filled. It is our hope to generate a diverse, well-qualified pool for this position, so if you are considering another position and need to hear back from EFG by a specific date, please note that in your cover letter.

Energy Futures Group is committed to creating a diverse workplace, it makes us and our work stronger, and is, therefore, proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status.
